

Queries related document • Website user can edit sell, rent and deposit price only
NO, As we said, they can edit the prices for the Sell, Rent, and everything else but not that 16 options we told you. We have 3 different prices for rent: Rent Only, Rent+Deposit or Deposit only, For sell we have One Price only which they can edited but we have different type of sell, Ordinary, Exchange, Presell, Auctions, and we do have Installment, which they can edited that. As we said again they can not edit that 16 items which last time we sent you only.

Means they can edit and can only able to add less price then the current price

1. If type is sell they can edit sell price
2. If type is rent they can edit rent price
3. If type is deposit they can edit rent price and deposit price both
4. If type id deposit only they can edit deposit price Is this correct ...

- Can we create different form for admin to update those fields that are not allowed for user to edit? No, why we should create another form. We use same form which customer filled up and we can edited the same form from admin page. Your question is not logical at all.

- Ejareh account unusual sign-in meaning? When you logging from different IP or computer which is not the same computer or IP first you open an account with us . That time it is become suspecois or unusual sign-in.

- Paypal id to integrate. I think we can use our personal PayPal account for now. Saeed will Provide you with all information of the account ID and etc..

- For paypal amount etc should we create an admin panel? Yes, For Each form that we create and customer use it to place an ad with us we need to create an admin panel . For this form We have two types of Ad price, one for Sell and another for Rent if the customer is from Iran he/she will pay usTOMAN through bank deposit transaction and if he/she is placing an ad with us but he/she want to pay us with pay PayPal or Credit card that time he/she has to pay to dollar amount. If they are from any other country they will pay us trough PayPal or credit card by dollar. That means we have to different amount of payment currency which are Dollar and Toman.. For instance ad for sell It is 100,000 Toman or 10 dollars and for rent it is different. For rent it is 50.000 Toman or 5 dollars. We should be able tio create a panel for that in admin page in order we can edit or change and update these pricese any time we want.

- Document/Title/Permit is not mandatory field Still user cannot edit ? As long as Website User can not edited is fine.

Note : Website user can be of any country not from specific 6countries we are using for properties. Yes, any user from anywhere in this world they can use our websitye and may they

have a real state on the countries we cover. Dose not matter where they are reside, if they have a real estate in any country that we cover, and they want to sell or rent their real estate we can help them to do that, far from their own location.

- Subscribers: For all customers of the same country for specific States and cities.? We are not storing country states etc. **I do not understand your question.**

- Website users - All users in the same Country for Specific States and Cities. ?

This is user accepted data.. Is it necessary? **Yes, it is necessary. We have to konw each user are from what country, state, city are and each country user should be separate from other country in order to manage them. The same as properties.**

- we will maintain only last 2 price. **No, we will have Original price (First price) all the time with red X on it and last edited Price.**
